### Historic Columbia River Highway Hiking and Biking Maps

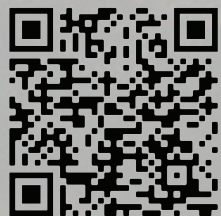

- Corbett to Portland
- Troutdale to Cascade Locks
- Cascade Locks to Hood River
- Hood River to The Dalles

The Portland and the Gorge areas have many miles of hiking and biking trails, many paved and most away from highway traffic.

### Short Trails along HCRH

A great way to see the beauty and majesty of the Gorge is to park your car and walk some of the short (many less than 1 mile) trails leading through the falls and beyond.

### Waterfalls of the Gorge (information, types, and stats)

There are dozens of amazing waterfalls in the Columbia River Gorge. Download information on locations and data about many of the major falls.

### Latourell Falls Hike

Although Latourell Falls is an easy walk from the highway, many visitors take the beautiful 2.15 mile loop to Upper Latourell Falls. Beautiful scenery and quiet solitude. Caution should be made though there are very steep cliffs and drop-offs along the area near the top of the lower falls.

### Wahclella Falls Hike

This hike is terrific, and relatively easy, compared to other trails in the Gorge. Great views of Tanner Creek and the gorge. NW Forest Pass Required ([www.fs.usda.gov/visit/passes-permits](http://www.fs.usda.gov/visit/passes-permits)). No pass required at the Toothrock Trailhead.
